

New Bluetooth headset with accessory bumper pack

Sandberg's latest product is a Bluetooth headset with a bumper pack of accessories. It's called the Sandberg Bluetooth Chameleon Headset II and, like its predecessor, features interchangeable bezels that enable you to change colour according to your style and mood. However, the headset itself is only a small part of the whole package, as the price includes lots of accessories too.

Among other things you get two types of ear clip and two types of ear cap to ensure the best fit for everyone. For those in need of a safe place to keep the headset when it's not being used, we provide a practical storage case and a neck strap that allows you to have the headset hanging from your neck. The accessory pack is completed by no less than three charging options: 1 USB charger with retractable cable, 1 wall socket charger and one 12 V car charger. This enables you to charge the headset in your house, in your car and at work. Not that the Sandberg Bluetooth Chameleon Headset II needs charging very often, as a fully charged battery gives you up to 15 hours of talk time and up to 380 hours of standby time!

The Sandberg Bluetooth Chameleon Headset II enables you to conduct handsfree, wireless conversations through connected compatible Bluetooth devices such as a mobile phone or computer. It gives you free movement within a radius of up to 10 metres from the connected device. It is ultra lightweight and compact and therefore convenient to take with you everywhere (weight 12 g incl. battery). A detailed user guide is supplied in English.

Sandberg Bluetooth Chameleon Headset II

About Sandberg:

Sandberg A/S is a Danish business producing high-quality computer accessories. The company was founded in 1985 and established as Sandberg A/S in 1997. The range covers everything for the home and business – from cables and headset to wireless networking. Sandberg specialises in networking products, IT and AV cables, plug-ins and audio. With around 600 quality products to choose from, it is easy to find precisely the computer accessory you need. The ten-language website **www.sandberg.it** provides easy and simple access to news, press materials, product descriptions, support and drivers, etc. Sandberg also provides a 5-year warranty on all its products, plus carefully designed user guides and a free hotline.

This is the reason we say: Sandberg makes it easier...
