

Sandberg Wireless G54 Router (Silver)

Sandberg Wireless G54 Router allows you to share a broadband connection and local area network connection using both wireless and wired connections. The Sandberg Wireless G54 Router is easy to configure thanks to its user-friendly web interface. Its features include a range of security settings that you can configure to prevent uninvited guests. The router works with ADSL, xDSL and cable modem connections that support one of the three protocols Ethernet, PPPoE or PPTP. Your Internet service provider can tell you whether your Internet connection is using one of these three standards. English manual.

IEEE 802.11g/b Access Point Wireless data rate up to 54 Mbit/s Wi-Fi compatible
Frequency: 2.4 GHz Range indoor: Up to 50 metres Range outdoor: Up to 250 metres
Web browser management Built-in DHCP
Simultaneous use of one public IP address with NAT Built-in firewall Supports cable modem and ADSL/xDSL Supports 64/128 Bit WEP encryption security Supports WPA/WPA2 and WPA-PSK/WPA2-PSK authentication and TKIP/AES encryption security. Security log Obtain WAN IP by PPPoE / Static IP / PPTP / DHCP Supports Virtual server/DMZ, WDS Bridge, Special Applications support (Port Triggers), UPnP, DDNS, PPTP and L2TP VPN Pass Through. Supports TCP/IP, PPPoE, DHCP, ICMP, NAT, SNTP, ARP protocols Up to 40 Mbit/s throughput 4 100BASE-TX LAN ports 1 100BASE-T WAN port Reset button 2 MB
